

GREEN N42

1. IDENTIFICATION OF MATERIAL AND SUPPLIER

Product Name	Green N42
Product Type	Liquid Fertiliser
Product Use	Fertiliser. Directions detailed on product label
Company Name	Agrobest Australia Pty Ltd
Address	9 Palings Court, NERANG QLD 4211
Emergency Tel.	0419 758 458
Telephone	(07) 55 960 622
Fax Number	(07) 55 960 616
Poisons Information Centre	13 11 26

2. HAZARDS IDENTIFICATION

Not hazardous according to GHS.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Chemical Characterisation Liquid

	<u>NAME</u>	<u>CAS NUMBER</u>	<u>CONCENTRATION</u>
Ingredients	Ammonium Nitrate	6484-52-2	30 - 60%
	Urea	57-13-6	30 - 60%
	Other ingredients (considered non-hazardous)	n/a	Balance to 100%

4. FIRST AID MEASURES

Inhalation	Remove victim from area of exposure to fresh air. If effects persist seek medical advice. Symptoms may include nausea, headache, pain and gastrointestinal irritation.
Ingestion	Do not induce vomiting. Rinse mouth with water. If swallowed, give large quantities of water to drink. Never give anything by mouth to an unconscious person. Seek medical attention if effects persist.
Skin	In case of skin contact, immediately remove contaminated clothing and wash affected area with water and soap. Seek medical attention if symptoms occur
Eyes	In case of eye contact, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical attention if symptoms occur
Advise to Doctor	Treat symptomatically, no specific antidote

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media	Use fire extinguishing media suitable to surrounding fire conditions. Spray water, foam or carbon dioxide
Hazardous Combustion Product	If involved in a fire, not combustible, but may support combustion of other materials. Some gases may be released.
Special Protective Equipment and Precautions for Fire Fighter	Wear SWA approved self-contained breathing apparatus and full protective clothing.
Unusual fire or explosion Hazards	Product does not present an explosion hazard
Explosion Hazards Hazchem Codes	None Allocated

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment and Emergency Procedures	Wear SWA approved self-contained breathing apparatus and full protective clothing. For further details refer to section 8
Environmental Precautions	In the event of a major spill, prevent spillage from entering drains or water courses. Spills to soil or similar surface may necessitate removal of top soil. The affected area should be placed in appropriate container for disposal
Methods and Materials for Containment and Cleaning Up	Slippery when spilt. Clean up all spills immediately. Stop leak if safe to do so and absorb spill onto sand, earth, vermiculite or some other inert absorbent material. Collect the spilled material and place into a suitable container for disposal.

7. HANDLING AND STORAGE

Precautions for safe Handling	Use of safe work practices are recommended to avoid eye or skin contact and inhalation of vapors. Ensure adequate ventilation. Food, beverages and tobacco products should not be stored or consumed where this material is in use. Always wash hands before smoking, eating, drinking or using the toilet. Wash contaminated clothing and other protective equipment before storage or re-use. Provide eyewash fountains and safety showers in close proximity to points of potential exposure
Conditions for Safe Storage	Store in a cool, dry and well ventilated area. Keep container tightly closed when not in use. Keep away from incompatible materials, organics or ammonia. Do not store with seed, chemicals or foodstuffs.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

National Exposure Standards	No exposure standards have been allocated.
Engineering Controls	This product should be used in a well ventilated area. Avoid breathing in vapours. If natural Ventilation is not sufficient the use of a fan is recommended. Keep containers closed when not in use
Personal Protective Equipment (PPE)	
Respiratory Protection	In case of intensive or longer exposure use self-contained respiratory protective device. See Australian Standards AS/NZS 1715 and 1716 for more information
Eye/Face Protection	Safety glasses with top and side shields. See Australian Standards AS/NZS 1336 and 1337 for more information.
Skin Protection	Protective PVC gloves, protective overall, waterproof apron and safety boots. See Australian Standards AS/NZS 2161, 2210.1 and 2210.2 for more information
Hygiene Measures	After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water. After each day's use, wash contaminated clothing and safety equipment.
Requirements Concerning Special Training	Refer to your State or Territory legislation for required training guidelines

9. PHYSICAL AND CHEMICAL PROPERTIES

Form	Liquid
Appearance	Clear Green
Odour	Slight Ammonium odour
Melting Point	N/A
Boiling Point	> 105 °c
Solubility in Water	Yes
Specific Gravity	1.29
pH	4.5 - 6
Vapour Pressure (20°C)	As water
Volatile component	Volatility 6% max at 363 F. Stable in the presence of light and moisture
Flammability	Non combustible

10. STABILITY AND REACTIVITY

Chemical Stability	Stable at ambient temperature and under normal conditions of use.
Incompatible Materials	Incompatible with combustible materials and reducing agents. Avoid contact with strong bases, strong acids, strong oxidising agents.
Conditions to avoid	Excessive heat, sparks, open flames and other ignition sources
Hazardous Decomposition products	May evolve ammonia and nitrogen oxides when heated to decomposition
Hazardous Reactions	Polymerization is not expected to occur

11. TOXICOLOGICAL INFORMATION

Toxicology Information	Low to moderate toxicity. Overexposure to high levels of nitrates can cause Methaemoglobinemia. Symptoms can include shortness of breath and blue tinged lips and skin.
Inhalation	Breathing in mist or vapours may result in respiratory irritation. Side effects of inhalation of spray mists can include nausea, headaches, pain and gastrointestinal irritation
Ingestion	Ingestion is not a likely form of exposure. If however swallowing does occur, symptoms such as nausea, vomiting, pain and gastrointestinal irritation and diarrhoea may occur.
Skin	Irritation may result from prolonged and repeated exposure or contact with the concentrate.
Acute Toxicity - Ingestion	Ammonium nitrate : LD50 2217mg/kg (rat) Urea: LD50 8471mg/kg (rat)
Acute Toxicity - Intraperitoneal	Urea: LD50 > 5000mg/kg (rat)
Acute Toxicity - Intravenous	Urea: LD50 4600mg/kg (mouse)
Acute Toxicity - Subcutaneous	Urea: LD50 8200mg/kg (rat)

12. ECOLOGICAL INFORMATION

Do not let this product enter drains, water bodies and sewerage systems. This product may be toxic to aquatic life. Undergoes ionic dissociation. This product contains phosphorus which should be excluded from surface and ground water.

13. DISPOSAL CONSIDERATIONS

Product Disposal	This product should be used for its intended purpose. Contact local authorities who hold collections of unwanted chemicals (ChemClear® 1800008182) if disposal of this product is required. On site disposal of the concentrated product is not acceptable.
Container Disposal	Do not reuse this container for any purpose. Instructions outlining the disposal of the product container are given on the label. These should be carefully followed. Additional assistance is available from drumMUSTER (http://www.drummuster.com.au). DrumMUSTER is the national program for the collection and recycling of crop production and on-farm animal health chemical containers. View their website to find contact details for your area. Empty containers and product should not be burnt.

14. TRANSPORT INFORMATION

Transport Information	It is recommended not to transport agricultural chemicals with foods, food related products and animal feed.
Storage and Transport	This product is not classed as a dangerous good for transport by the Australian Dangerous Goods Code (ADG Code) for the transport of dangerous goods by road or rail.
IMDG UN Number	This product is not classed as a Dangerous Good for transport by the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea

15. REGULATORY INFORMATION

Classification	Not classified as hazardous according to criteria of GHS
Poison Schedule	None allocated
Hazard Category	None allocated
AICS (AUST)	All of the components in this product are listed on the Australian Inventory of Chemical Substances

16. OTHER INFORMATION

Last revision of MSDS	Rev1.0 27/06/2022 GHS: Globally Harmonised System of Classification and Labelling of Chemicals ADG Code : Australian Dangerous Goods Code for the Transport of dangerous Goods by Road and Rail IMDG Code : International Maritime Dangerous Goods Code for transport by sea. SWA: Safe work Australia. Formerly ASCC and NOHSC AICS : Australian Inventory of Chemical Substances
