

KNIFE CRUSHER

The Knife Crusher, also made from AISI 304 stainless steel, has a maximum capacity of 5 t/h. It is equipped with four pre-cutting blades, particularly useful at the start of the season to enhance the organoleptic qualities of the product. These blades are easily removable for later processing stages. The rotor, featuring six interchangeable knives, ensures gentle processing that preserves product quality. A built-in cooling chamber maintains a consistent temperature throughout the operation, further enhancing product integrity.

→ TECHNICAL DATA

Capacity (t/h)	3 4 5
Electric motor (kw)	18 22 30
Material	AISI 304
Model	FR-X-C
Length (mm)	1326
Width (mm)	700
Height (mm)	767
Weight (kg)	352
Voltage (Vac)	400
Frequency (Hz)	50
Power Supply Line	3F+T
